PROJECTS

BlueMeet - Real-Time Video Calling Application | React, Vite, Tailwind CSS, WebRTC, Socket.IO, Node.js, Express

- Built a peer-to-peer video conferencing app with room joining, live video/audio calls, screen sharing, and leave/rejoin handling.
- Implemented WebRTC signaling with Socket.IO events for offer, answer, ICE candidate exchange, ready state, and room-full control.
- Improved call stability by handling ICE queue timing, remote description setup, media cleanup, and deployment CORS issues across Vercel and Render.

JARVIS AI Chatbot - Conversational AI Web App | React, Node.js, Express, MongoDB, Groq API

- Developed an AI chatbot with conversation history, memory storage, mobile-friendly chat UI, new-chat/delete flows, and voice/TTS toggle.
- Designed REST endpoints and MongoDB models for chat persistence, user memory, and context-aware responses using recent conversation history.
- Deployed frontend and backend on Vercel and Render, resolving CORS, environment variable, and API model migration issues.

AI Resume Analyser | Flask, Python, MySQL, PyPDF2, python-docx, HTML, CSS

- Created a resume analysis system that accepts PDF/DOCX uploads, extracts resume text, and organizes results through dashboard/history pages.
- Implemented login/signup UI, server-side routing, database integration, and clean card-based templates for a professional user experience.

Business Website Projects - Das Enterprise / Efintech Solutions / Consulting Firm | HTML, CSS, JavaScript, React, Tailwind CSS

- Designed responsive business websites with clean layouts, service sections, contact areas, and mobile-first UI structure for client-style use cases.
